

Statement on REACH Compliance

S-P International is aware of the REACH Regulation (Registration, Evaluation, Authorization and Restriction of Chemicals Regulation, EC 1907/2006), the European Union regulation that is intended to regulate the use and importation of chemicals and substances into the European Union. **S-P International** supports the basic objective of REACH to further improve the European Union's chemicals regulatory system, including the aim to advance public health and safety and protection of the environment. **S-P International** continues to review our components and products in an on-going effort to continue the due diligence process.

All **S-P International** products are REACH compliant. **S-P International** shall continue to ensure that all products meet REACH requirements and is committed to provide our customers with information about substances in our components and products according to current and future REACH requirements. We will notify our customers regarding the presence of any Substances of Very High Concern (SVHC) in a product exceeding 0.1% by weight.

S-P International meets the latest requirements of REACH compliance as of the changes made January 12, 2017, covering 173 substances. If Customers have a request about the compliance documents for our components and products, please email the request to info@s-pintl.com.
